Re: Health Insurance - Open Enrollment - Notification to Employees

Dear Ms. Hechler:

For some time now I have been told that City employees would be notified of when the health insurance open enrollment period would start. To date nothing has been published by the City which is a cause of great concern given the lateness of any potential future notifications as many employees will be on vacation and may not receive the notification, thus not being able to enroll. As a result, I am requesting that you state, in writing, what contingencies have been implemented to ensure that none of Local 2432's bargaining unit members will be negatively impacted should they not be able to enroll prior to January 1st.

I await your response.

Sincerely,

Christopher Cassidy
President
